

Material needed for tie & dye

1. 100% cotton fabric for samples, approx. for 2 or 3 squares
2. T shirt or item of clothing must be 100% cotton
3. Cold water dye (can be machine washable but use by hand)
4. Rubber gloves
5. Apron or protective clothing
6. Plastic covering for your work table (can be a black plastic bag)
7. Rubber bands & loom bands
8. Scissors
10. Salt -- $\frac{1}{2}$ cup of salt in 8 cups of warm water
11. White vinegar -- Dissolve 1 part white vinegar to 4 parts water (salt and vinegar dilute separately then mix together)
12. 2 buckets (one for dying, second one for fixing the dye)
13. 2 -3 jam jars with lids for sample work and storing dyes
14. Plastic containers can also be useful (empty 1kg yogurt containers for sample work)
