

## Note to students

This week we will be focusing on common illnesses in children. Please do the exercises in the following order.

1. Think of your own child or a child you know. In your copy, make a list of ways you would know if he/she was not feeling well. Send this list to me via WhatsApp.
2. Read the handout *Common Signs of Illness in Young Children*. The illnesses described here have been taken from the website <https://www2.hse.ie/under-the-weather/>. Please read the full descriptions of the illnesses on the website.
3. Read back over pages 52 to 56 of the *Your Child's Immunisation: A guide for parents* handout.
4. Complete the case study worksheet (2 pages). Take a picture of your work and email or WhatsApp it to me.
5. Complete the Assignment Children's Illnesses worksheet. Take a picture of your work and email or WhatsApp it to me.

If you have a problem with any of this work please contact me.

As next Wednesday, 27 May is the last class before the Summer holidays, please try to have any outstanding work handed in before this time.

Warm regards,

*Grace*
