

Hi all,

I hope you are all safe and well.

This week, we are going to look at the safety measures that we need to take to ensure that our homes are safe places for babies and young children. Please do the work in the following order.

- a) In the handout *Safety Issues Think About Things in the Kitchen...*, I would like to you think about safety in your home. Think about things that may be dangerous for babies and young children and also think about how you might remove this danger. Please answer the questions in your copy and send a photograph of your answers to me on WhatsApp.
- b) Read the *Safety Indoors Reading* piece.
- c) Answer the *Safety Indoors Questions* and send the answers on to me by WhatsApp.
- d) Then attempt the *Safety Indoors Assignment and Checklist* and send this on to me by Whats App for feedback.

If you have wifi, I would also like you to look at the following HSE webpages for child safety. They have lots of very good information on different safety issues, including poisons, blinds and curtains etc. The web address is <https://www2.hse.ie/babies-and-toddlers/child-safety/>.

Take your time going through these assignments.

Warm regards,

*Grace*
